# Noa Nelson

Noanelz04@gmail.com • (949) 339-0222

## Education

**Virginia Tech**, Blacksburg, VA — May 2026

Bachelor of Science, Computer Science

Minor in Mathematics

**Old Dominion University,** Norfolk VA – August 2028

## Professional Experience

**NSWCDD DNA**, Virginia Beach — August 2026 – Present

*Software Engineer*

- Developed and optimized modular components for the Surface Training Advanced Virtual Environment (STAVE), enhancing the fidelity of virtual simulations used for Navy sailor deployment prep.
- Collaborated within an Agile environment alongside government contractors and senior engineers to translate complex operational requirements into functional code.
- Engineered scalable software solutions for high-stakes training scenarios, ensuring stability and performance across integrated virtual platforms.
- Conducted rigorous debugging and unit testing to identify and resolve software defects, maintaining the integrity of mission-critical training modules.
- Participated in technical design reviews, contributing to the iterative improvement of simulation UI/UX and backend logic to better mimic real-world naval operations.

## Projects & Extracurricular

**Kappa Alpha Order Fraternity** — President, Nov. 2024 – Nov. 2025

- Developed and executed a long-term vision for the chapter, focusing on recruitment growth, member retention, and a 42% increase in community service hours as the chapter president

## Skills

**Programming languages:** Java, C Sharp, C, Python, Javascript, SQL

**Computer software/frameworks:** Git, React, Office365, Visual Studio Code, VS Code, Unity
